COLONEL
WILLIAM M. PALLOZZI
SUPERINTENDENT

November 9, 2015

The Honorable Larry Hogan
Governor of Maryland
State House
Annapolis, MD 21401

Dear Governor Hogan:

In accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland, the Maryland Department of State Police is pleased to submit the 2014 Uniform Crime Report, Crime in Maryland. This publication represents the 40th annual Crime in Maryland report.

The 2014 Crime in Maryland publication provides valuable information to law enforcement personnel, policy makers and interested parties to include those in academic, civic and research organizations. The statistics presented in this release are an indication of crime and criminal activities known to and reported by law enforcement agencies for 2014. The information presented focuses on the incidence of crime and provides an indicator over time of variations in crime trends.

Maryland law enforcement agencies contribute crime data to the Maryland Uniform Crime Reporting Program. Statistics pertaining to crime trends could not have been compiled without the dedication and cooperation of all police agencies, sheriff's offices and specialized law enforcement agencies throughout the State of Maryland. Contributions by Maryland law enforcement agencies to the Uniform Crime Reporting Program enable the Maryland Department of State Police to develop and present a comprehensive picture of crime in Maryland.

Sincerely,

William M. Pallozzi
Superintendent

WMP:IJW:kw

"Maryland's Finest"

Executive Summary

An annual release since 1975, Crime in Maryland reports crime statistics provided by Maryland Law Enforcement agencies to the State's Uniform Crime Reporting (UCR) Program. Crime in Maryland details crime incidents, clearance rates, arrests, law enforcement officers killed or assaulted, and law enforcement employee data. The statewide UCR Program was developed to report crime in Maryland to the National UCR Program administered by the Department of Justice, Federal Bureau of Investigation. The Maryland program has evolved to collect data on domestic violence, hate bias, and carjacking incidents and arrests. Reports and statistics pertaining to hate bias and their associated arrests are released in a separate State Police publication.

The Uniform Crime Reporting Program collects information on crimes that have been selected as an index to represent crime in the United States. These index crimes are murder, rape, robbery, aggravated assault, breaking or entering, larceny-theft and motor vehicle theft. Although not an index crime, data pertaining to the crime of arson is also included.

There were 176,912 total crime incidents reported in 2014 compared to 185,422 in 2013. The crime index total as well as both the violent and property crime decreased five percent in 2014, when compared to 2013. The violent crime group consists of murder, rape, robbery and aggravated assault. The composition of the property crime group is breaking or entering, larceny-theft and motor vehicle theft. The 2014 decrease in index crimes breaks down as follows:

Murder	- 6.2%	Breaking or Entering	- 11.6%
Rape	- 2.1%	Larceny-Theft	- 2.8%
Robbery	- 4.3%	Motor Vehicle Theft	- 2.1%
Aggravated Assault	- 5.4%	Arson	- 19.3%

There were 237,835 arrests reported in 2014 compared to 245,505 in 2013. Arrests in Maryland decreased three percent in 2014, when compared to 2013. Of the total arrests, 213,271 were adults and 24,564 were juvenile. When compared to adult and juvenile arrests in 2013 this is a decrease of two percent and 13 percent respectively. Arrests for drug offenses totaled 43,705 in 2014. This is an 11 percent decrease when compared to drug offense arrests reported in 2013. In 2014, 20,678 persons were arrested for driving under the influence. This is a decrease of one percent when compared to driving under the influence arrests reported in 2013.

There were no Maryland law enforcement officers who died in the line of duty during 2014; however, there were 2,968 Maryland law enforcement officers assaulted in 2014. This represents a decrease of 13 percent over similar assaults reported in 2013 and equates to 19 percent of full time law enforcement officers employed in Maryland.

In 2014, there was a less than one percent increase in the number of full-time law enforcement officers in Maryland. There were 15,893 full-time law enforcement officers in 2014 compared to 15,828 in 2013. In 2014, this equated to 2.7 full-time law enforcement officers per 1,000 of population, the same as in 2013.

INTRODUCTION

BACKGROUND

The Maryland Uniform Crime Reporting (UCR) Program is one component of the State's Criminal Justice Information System (CJIS). It establishes a method to collect, evaluate and process uniform statistical data on crime statewide. The Maryland UCR Program provides a means to consolidate the relevant data into a statewide report that can be provided to state, local and federal government agencies.

NATIONAL UNIFORM CRIME REPORTING PROGRAM

The counterpart of the Maryland UCR Program is the National UCR Program which is under the direction of the Federal Bureau of Investigation (FBI). The National Program resulted from a need for a uniform compilation of crime statistics nationwide. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs' of Police (IACP). The IACP continues to serve in an advisory capacity to the FBI in the current operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all 50 states are presented annually in the FBI's publication entitled Crime in the United States.

MARYLAND UNIFORM CRIME REPORTING PROGRAM

The FBI has actively assisted individual states in the development of State UCR Programs compatible with the National Program. Maryland took advantage of this assistance in 1972 and was able to develop its own program by 1975.

The Maryland Uniform Crime Reporting Program became operational January 1, 1975. This program consists of the uniform classification, review, compilation and analysis of crime statistics reported by all law enforcement agencies of the State pursuant to the guidelines and regulations prescribed by law.

The responsibility and authority for the collection and dissemination of UCR data is assigned to the Department of State Police in accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland.

PURPOSE AND OBJECTIVES

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the Maryland UCR Program was planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in Maryland is tracked through the entire criminal justice system from time of arrest, through the courts, to the correctional system where their exit (parole, expiration of sentence, etc.) is recorded. In this manner, a complete "criminal history" on individual offenders is available for use by the police, courts and correctional agencies in Maryland. In addition, statistical data derived from the CJIS Program provides assistance in determining the overall efficiency of the Criminal Justice System in Maryland and will make effective management studies possible.

The fundamental objectives of the Maryland UCR Program are:

1. Inform the Governor, legislature, other governmental officials and the public the nature, magnitude and trends of the crime problem in Maryland.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.
4. Provide base data and statistics to measure the workload and effectiveness of Maryland's Criminal Justice System.
5. Provide base data and statistics to measure the effects of prevention and deterrence programs.
6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.
8. Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURES

Under the Maryland UCR Program, law enforcement agencies submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

Crime data and information is submitted to the Maryland UCR Program monthly by state, county and municipal law enforcement agencies on the number of offenses known to them in the following crime categories:

- (1) Criminal Homicide
- (2) Forcible Rape
- (3) Robbery
- (4) Assault
- (5) Breaking or Entering
- (6) Larceny-Theft
- (7) Motor Vehicle Theft
- (8) Arson*

The count of offenses is taken from the record of complaints received by law enforcement agencies. This information comes from victims, witnesses, other sources or discovered by law enforcement during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories are reported without regard for whether anyone is arrested, stolen property is recovered, local prosecution policies or any other consideration.

Reported offenses are recorded by the municipality and county in which they occur. Municipal law enforcement agencies report those crimes which occur within the cities and state. County agencies report those crimes which occur in the counties outside the cities.

A supplemental report is also submitted each month showing the value of stolen and recovered property, the type of property and the type of offense within a crime category in which it was taken. This report also shows the number of stolen vehicles recovered locally and by other jurisdictions. In addition, each agency reports the number of persons arrested by them or other agencies for crimes which have occurred within their jurisdiction. The arrest report also shows the age, sex and race of those arrested and the disposition of juveniles by the arresting agency. When applicable, supplemental reports are submitted regarding the persons, weapons and circumstances, etc., involved in homicides, domestic violence incidents, officer assaults and "carjackings." In addition, police employee data is collected on an annual basis.

*Monthly arson reports are submitted for law enforcement agencies by the State Fire Marshal's Office and designated county agencies to the Maryland UCR Program.

REVIEW PROCESS

A major concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aides, such as guides and instructional classes, do not necessarily guarantee the accuracy of the reports submitted by the contributors, therefore, additional controls are necessary.

Each report received by the UCR section is recorded, examined and reviewed for mathematical accuracy and reasonableness. The review process includes numerous checks to ensure the validity of information. The elimination of duplicate reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact with the contributors, while substantial variations and errors are adjusted through personal contacts. The personal contacts are invaluable to the accuracy and quality of reporting. Field Records Representatives are engaged in a constant educational effort by revisiting UCR definitions and the classifying and scoring process with the contributor and as such, provides a vital link between the UCR Program.

POPULATION DATA

The computation of crime rates, as they appear in this report by municipality, county and state, are based on the latest available population estimates for the year. These population estimates are provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

LIMITATIONS OF A UNIFORM CRIME REPORTING PROGRAM

Information currently collected by the Maryland UCR Program is generally the same as that gathered by the National System, and the methods of classifying and scoring offenses and arrests are the same. This readily enables comparisons with other states and with the nation, as a whole. However, there are limitations to the information collected which should be clearly understood before any conclusions are drawn from the UCR data presented in this report.

The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, etc.

A first step in the control of crime is to ascertain the true dimensions of the problem; however, present statistics, as gathered by the UCR Program, measures neither the real incidence of crime nor the full amount of economic loss to victims. The Maryland UCR Program collects crime under a summary based reporting system, therefore, not all crimes occurring in one incident is captured. Information regarding number of offenses, clearances, value and type of property stolen and recovered property are collected only for the eight Part I offenses. For Part II offenses, the only information submitted is the number of arrests for these crimes. Consequently, there is no record of the actual number of Part II offense occurring, or is there a calculation made for property loss.

The Crime Index does not explicitly take into account the varying degrees of seriousness of its seven components (excluding arson). Each crime receives the same weight as it is added to the index; consequently, an auto theft is counted the same as a murder and an aggravated assault is weighed equally with an attempted breaking or entering. Any review of crime must consider the volume, rate and trend of each offense that comprises the index and the relationship between these seven crimes*.

The Maryland and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested. Difficulties can arise if this distinction is not kept clearly in mind. Crimes relate to events, arrests relate to persons. Unlike traffic violations where there is usually one event, violation and offender, a single criminal act can involve several crimes, offenders and victims. Relating specific crimes to a criminal or offense to evaluate characteristics of those arrested is generally beyond the scope of the present Uniform Crime Reporting Program.

Juvenile crime and arrest statistics, because of their nature, are another area of misunderstanding. Many juvenile offenders are handled informally. As a consequence, inaccurate or incomplete recording of the event or action may result. Procedures for handling juveniles vary between departments more so than the handling of adult offenders. Furthermore, the degree of juvenile involvement in cleared offenses is often misunderstood because the juvenile clearance indicator is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

*Arson is not used at this time in computing the Crime Index.

This page intentionally left blank

CRIME FACTORS

Statistics compiled under the Uniform Crime Reporting Program from data submitted by Maryland law enforcement agencies projects a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present to some degree in every community. Their presence affects in varying degrees the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern. The police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. In so far as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Listed below are some of the conditions which affect the type and volume of crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with particular reference to age, sex and race.

Economic status of the population.

Relative stability of the population including number and ratio of seasonal visitors, residents, commuters and other transients.

Climate and seasonal weather conditions.

Educational, recreational and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Organization and cooperation of adjoining and overlapping police jurisdictions.

CRIME INDEX OFFENSES

The crime counts listed in this publication are actual offenses established by police investigations. When police receive a complaint of a crime and the follow-up investigation discloses no crime occurred, it is “unfounded.” In 2014, police investigations that were “unfounded” represented one percent of all the complaints concerning index offenses. When comparing individual index offenses to the number reported, “unfounded” offenses ranged from less than one percent in the larceny-theft category to 17 percent in the rape category.

A total of 176,912 actual index offenses were reported to law enforcement agencies in Maryland during the calendar year 2014. This represents a decrease of five percent when compared to the 2013 total of 185,422 crime index offenses. In this publication, the calculations for averages may not add to the total due to rounding.

An analysis of all index offenses by month in 2014 shows that July had the highest frequency of occurrence, and February had the lowest. In 2013, August had the highest frequency of occurrence and February the lowest.

The crime index offenses are serious crimes by their nature, volume, or frequency of occurrence. They are categorized as violent crimes, which includes murder, forcible rape, robbery and aggravated assault, or as property crimes, which includes breaking or entering, larceny-theft and motor vehicle theft.

VIOLENT CRIME

Violent crimes involve the element of personal confrontation between the perpetrator and the victim; consequently, they are considered more serious than property crimes because of their very nature. These offenses accounted for 15 percent of the total Crime Index for 2014, the same as in 2013. Violent crime decreased five percent when compared to 2013.

PROPERTY CRIME

The number of property crimes reported during 2014 was more than five times greater than the number of violent crimes reported. As a group, property crimes made up 85 percent of the total Crime Index in 2014, the same as in 2013. Property crime decreased five percent when compared to 2013.

RATES

Crime Rates relate the incidence of crime to the resident population. Many other factors, which may contribute to the volume and type of crime in a given jurisdiction, are not incorporated here, but are shown in the section entitled, "Crime Factors."

In 2014, the Crime Rate for Maryland was 2,960.2 victims for every 100,000 population. This represents a five percent decrease in the crime rate when compared to the 2013 rate of 3,127.5.

The 2014 Crime Rate for the Violent Crime group was 441.3 victims per 100,000 inhabitants, a six percent decrease compared with the 2013 rate of 467.5. The Property Crime group had a rate of 2,518.9 victims, a five percent decrease when compared to the 2013 rate of 2,659.9.

CLEARANCES

For Uniform Crime Reporting purposes, a crime is cleared when police have identified the offender, have evidence to charge the person and actually take them into custody. Solutions of crimes are also recorded in exceptional instances where some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or local prosecution is declined because the subject is being prosecuted elsewhere for a crime committed in another jurisdiction. The arrest of one person can clear several crimes or several persons may be arrested in the process of solving one crime.

Maryland Law Enforcement Agencies cleared an average of 26 percent of all Index Offenses reported to them in 2014, the same as in 2013.

Violent Crimes recorded a 52 percent clearance rate in 2014, compared to a 54 percent clearance rate in 2013. The Property Crime group experienced a 21 percent clearance rate in 2014, the same as in 2013.

Considered individually, the 2014 Violent Crime clearance rate was determined to be 61 percent of the Murders, 49 percent of the Rapes, 34 percent of the Robberies and 64 percent of the Aggravated Assaults. The Property Crime clearance rates were 17 percent for Breaking or Entering, 24 percent for Larceny-Theft and 10 percent for Motor Vehicle Theft.

The relatively high clearance rate for Violent Crimes as compared to Non-Violent Property Crimes is in part attributable to the volume difference between the two. Property Crime volume is much greater than that of Violent Crime, and police investigation of Violent Crime is usually more intense.

JUVENILE CLEARANCES

A Juvenile Clearance is the clearance of an offense in which all of the offenders involved were under the age of 18. If one of the offenders was over 18 years of age, the clearance of that offense is not considered a Juvenile Clearance. In 2014, such Juvenile Clearances represented 13 percent of all clearances, the same as in 2013.

Juvenile Clearances in the Violent Crime category represented 13 percent of the total cleared in 2014 compared to 11 percent in 2013. The clearance rates in Violent Crimes are: Homicide 2 percent, Rape 9 percent, Robbery 19 percent and Aggravated Assault 11 percent.

In the Property Crime category, clearances involving Juvenile offenders represented 13 percent of the total cases cleared in 2014, the same as in 2013. The clearance rates in Property Crimes are: Burglary 12 percent, Larceny-Theft 13 percent and Motor Vehicle Theft 23 percent.

STOLEN PROPERTY VALUES

The total value of Property Stolen during 2014 was \$233,408,724 which represents 5 percent decrease from 2013. Recovered Property amounted to \$64,052,090 which is 27 percent of the total stolen, resulting in a \$169,356,634 property loss to victims in the State of Maryland during 2014. This property loss represents a decrease of eight percent when compared to the property loss in 2013.

This page intentionally left blank

MURDER

MURDER

Murder and non-negligent manslaughter is the willful (non-negligent) killing of one human being by another.

VOLUME AND RATE

During 2014, a total of 363 murders were reported. This represents a 6.2 percent decrease over 2013. Murder accounted for one percent of all violent crime and less than one percent of the crime index. In 2014, there were 6.1 murders per 100,000 of population.

ANALYSIS OF MURDER

In 2014, 221 murders were cleared with two percent of these clearances involving only juvenile offenders. A total of 241 persons were arrested for murder during 2014. A breakdown of persons arrested for murder was 88 percent male, 12 percent female, seven percent juvenile, 71 percent Black and 28 percent White and one person consisting of American Indian and Asian.

During 2014, 150 of the murder victims were in the 18 to 29 age group, representing 41 percent of the total. There were 30 juvenile victims of murder, accounting for eight percent of the total murder victims.

Handguns were used in 64 percent of the reported murders in 2014. This represents a 14 percent decrease in their use when compared to the handgun use in 2013. The next most used weapon was a knife, accounting for 22 percent of the reported murders in 2014. In 2013, knife accounted for 16 percent of the reported murders.

Drug related murders accounted for three percent of the total in 2014. In 2013, drug related murders accounted for two percent of the total.

Family members, as offenders, accounted for 15 percent of the total murders, an increase of eight percent from 2013. Of the family members as offenders, husband and wife or boyfriend and girlfriend (those who had cohabitated) reflect seven percent of the total murders reported.

Additionally, an acquaintance is listed in 13 percent of the murders reported in 2014. Strangers and unknown relationships accounted for two other large categories with 42 percent and 37 percent respectively.

In 44 percent of the murders, the offenders are unknown and not described. When the race of the victim and offender is known, the offender is most often someone of the same race.

RAPE

RAPE

Forcible rape is defined as the carnal knowledge of a female forcibly and against her will.

VOLUME AND RATE

During 2014, 1,144 forcible rapes were reported. This represents a 2.1 percent decrease over 2013. Rape accounted for four percent of the violent crime and one percent of the crime index. In 2014, there were 19.1 rapes per 100,000 of population.

ANALYSIS OF RAPE

Under the category of forcible rape, (1) rape by force accounted for 90 percent and (2) 10 percent were attempt to rape.

In 2014, 555 forcible rapes were cleared with nine percent of these clearances involving only juvenile offenders.

A total of 351 persons were arrested for forcible rape during 2014. A breakdown of persons arrested for forcible rape was, 13 percent juvenile, 59 percent Black and 40 percent White and 2 percent consisting of American Indian and Asian.

ROBBERY

ROBBERY

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

VOLUME AND RATE

During 2014, there were 9,651 robbery offenses reported. This represents a 4.3 percent decrease over 2013. Robbery accounted for 37 percent of the violent crime and five percent of the crime index. In 2014, there were 161.5 robberies per 100,000 of population.

ANALYSIS OF ROBBERY

During 2014, 50 percent of the robberies were committed on the street, while only two percent were bank robberies. Of the total number of robberies committed, firearms accounted for 43 percent, while robberies committed with personal weapons accounted for 40 percent of the total.

In 2014, 3,240 robberies were cleared with 19 percent of these clearances involving only juvenile offenders.

A total of 3,632 persons were arrested for robbery during 2014. A breakdown of persons arrested for robbery was 89 percent male, 11 percent female, 30 percent juvenile, 81 percent Black, 19 percent White and less than one percent consisting of American Indian and Asian.

ARSON

ARSON

Arson is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

VOLUME AND RATE

During 2014 there were 1,010 arsons reported. This represents a 19.3 percent decrease over 2013. In 2014, there were 16.9 arsons per 100,000 population.

Structures accounted for 47 percent, mobile accounted for 29 percent of the total number of arsons, while other property accounted for 24 percent. Residential comprised 64 percent of the structures at which arson was directed, with 18 percent of all targeted structural property being uninhabited. The estimated value of property damage was approximately 12 million dollars.

In 2014, 258 arsons were cleared, with 43 percent of these clearances involving only juvenile offenders.

A total of 362 persons were arrested for arson during 2014. A breakdown of persons arrested for arson was 78 percent male, 23 percent female, 41 percent juvenile, 44 percent Black, 55 percent White and 1 percent consisting of American Indian and Asian.

DOMESTIC VIOLENCE

DOMESTIC VIOLENCE

BACKGROUND

The Domestic Violence Act of 1994 mandated that all law enforcement agencies in Maryland submit copies of incident reports involving domestic violence to the Maryland State Police. The Maryland Uniform Crime Reporting Program created a revised Domestic Violence (formerly known as Battered Spouse) data collection form. The new form allowed for the collection of more data based upon a revised definition of a domestic violence incident under the Maryland Uniform Crime Reporting Program guidelines.

In 2012, HB1146/SB647 “Domestically Related Crimes” was signed into law to help improve the recording and tracking of domestic violence crimes. Maryland does not have a distinct crime of domestic violence, therefore, the new law helps law enforcement, advocates, prosecutors and judges better protect domestic violence victims and set more appropriate conditions for abusers.

To better align with Maryland Law, the Maryland Uniform Crime Reporting Program expanded the definition of domestic violence to include ten additional relationships in calendar year 2013. Prior to 2013, the only reported relationships between domestic violence victims and offenders were husband, wife and cohabitant. The title of the reporting program was also changed to the Maryland Domestically Related Crime Reporting Program.

Under the Maryland Uniform Crime Reporting Program the definition for a domestically related crime mirrors HB1146/SB647: “any crime committed by a suspect (respondent) against a victim who is a person eligible for relief, as defined in §4-501 of the Family Law Article or who had a sexual relationship with the suspect within 12 months before the commission of the crime. This also includes homosexual relationships.”

A “person eligible for relief”, as defined in §4-501 of the Family Law Article includes:

- The current or former spouse of the respondent;
- A cohabitant of the respondent ;
- A person related to the respondent by blood, marriage, or adoption;
- A parent, stepparent, child, or stepchild of the respondent or the person eligible for relief who resides or resided with the respondent or person eligible for relief for at least 90 days within 1 year before the filing of the petition;
- A vulnerable adult;
- An individual who has a child in common with the respondent.

Prior to 1996, the statistical information collected was restricted to assaults to a domestic partner and excluded individuals of the same sex who were in an intimate relationship and who are cohabiting or have cohabited. The additional information now collected provides a more comprehensive report.

DOMESTIC VIOLENCE CRIMES

Based on the previous definition of domestic violence, there were a total of 15,055 domestic violence crimes reported statewide in 2014, as compared to 16,817 crimes in 2013. This represents a 10.5 percent decrease in the number of domestic violence crimes. Due to the improved recording and tracking made possible by the 2012 legislation, an additional 12,187 domestically related crimes were reported in 2014, representing the inclusion of more types of domestic relationships. The breakdown is as follows:

RELATIONSHIPS

Domestic violence reporting includes the nature of the victim's relationship with his or her abuser. The breakdown is as follows:

	2010	2011	2012	*2013	2014
SPOUSE:					
Husband	2,064	1,974	1,889	1,866	1,754
Wife	5,233	4,843	4,883	4,761	4,148
Cohabitant					
Heterosexual Male	2,532	2,727	2,537	2,460	2,257
Heterosexual Female	7,754	8,261	7,868	7,342	6,514
Homosexual	348	404	438	388	382
SUBTOTAL	17,931	18,209	17,615	*16,817	15,055

*Note: In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported (see page 52).

*Note: In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland Law. This change explains the increase in the total number of Domestically Related Crimes reported (see page 52). **Note: "Intimate partner" refers to a victim who had a sexual relationship with the suspect within 12 months before the commission of the crime.

ASSAULTS

Assault is the most frequent type of domestic violence reported. Under the new Domestically Related Crime definition, there were a total of 24,485 domestic assaults in 2014. This represents 90 percent of all domestically related crimes. There were 4,783 domestic assaults reported as an “aggravated domestic violence assault,” which means an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. Aggravated assaults represented 20 percent of the total reported domestic assaults in 2014.

	2010	2011	2012	*2013	2014
Aggravated

TOTAL	17,931	18,209	17,615	*27,785	27,242

Analysis

In 2014, 47 percent of all domestic violence crimes reported occurred between the hours of 6:00 P.M. and 1:00 A.M., inclusive. Thirty-four percent of domestic violent crimes reported occurred on Saturday and Sunday. When combining these two categories, this would indicate that an intensive period for domestic violence crimes occurs between 6:00 P.M. and 1:00 A.M. on Saturday and Sunday.

*Note: In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported (see page 52).

VICTIMS

Age

Fifty percent of the victims of domestic violence are between 25 to 44 years of age, inclusive.

TOTAL	17,931	18,209	17,615	*27,785	27,242

*Note: In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported (see page 52).

CLEARANCES

There are two ways of clearing a case. One is by making an arrest and charging the person(s) with the offense. The second is known as an exceptional clearance. Exceptional clearance means the police know the identity and location of the person(s) who committed the offense and have enough information to arrest them. However, there is some reason beyond their control that prevents them from making the arrest.

The arrest and exceptional clearances reported reflect the disposition at the time the domestic violence report form was forwarded to the Uniform Crime Reporting Program. These reports are not updated; therefore, other arrests and exceptional clearances may occur, but would not be reflected in the following totals.

	2010	2011	2012	*2013	2014
Arrest	8,615	8,590	8,058	11,098	10,936
Exceptional	5,374	5,644	4,677	8,649	8,366
Unknown	3,942	3,975	4,880	8,038	7,940
TOTAL	17,931	18,209	17,615	*27,785	27,242

During 2014, 71 percent of all domestic violence cases were cleared. A breakdown of the clearances in 2014 includes 40 percent by arrest, 31 percent by exceptional clearance and 29 percent unknown, the same as in 2013.

*Note: In 2013, domestic violence data reporting was expanded to include additional relationships and reflect changes in Maryland law. This change explains the increase in the total number of Domestically Related Crimes reported (see page 52).

CARJACKING

CARJACKING

Since 1992, the UCR Program has collected data on a type of robbery popularly called “carjacking”. A definition was developed to identify the term “carjacking”. The definition is:

“Carjacking” is a robbery or attempted robbery where the primary objective is to obtain the victim’s motor vehicle and the victim is in the vehicle or in very close proximity to the vehicle”.

In 2014, there were 350 carjackings representing a 6 percent increase over the 330 carjackings reported in 2013. Additionally, 81 Motor vehicle robberies were reported that did not meet the carjacking definition, including 1 unfounded carjacking.

VICTIMS

There were 384 victims of carjackings reported in 2014. By gender, the 384 victims of carjackings were made up of 72 percent male and 28 percent female. Blacks accounted for 67 percent of the carjacking victims, 28 percent white and all other races combined equaled 5 percent.

The following reflects the sex, race, age and injures of the reported victims:

Sex

	2010	2011	2012	2013	2014
Female	173	126	171	116	107
Male	440	352	357	242	277

OFFENDERS

This report only captures details on six offenders per carjacking. In 2014, there were 604 detailed offenders involved in carjackings. By gender, the detailed perpetrators of carjackings were 94 percent male, four percent female and two percent unknown. The carjacking offenders were 90 percent black, seven percent white, and two percent for all other races combined with the unknown. The following reflects the sex, race and age of the reported offenders:

Sex

	2010	2011	2012	2013	2014
Female	43	23	25	20	23

11:00 P.M.	59	35	51	29	25
TOTAL	537	435	473	330	350

Analysis

In 2014, 53 percent of all carjacking crimes occurred between the hours of 6:00 P.M. to 1:00 A.M., inclusive. Thirty-two percent of carjacking crimes occurred during Saturday and Sunday. When combining these two categories, this would indicate that an intensive period for carjacking crimes occurs between 6:00 P.M. and 1:00 A.M. on Saturday and Sunday.

CLEARANCES

An offense is cleared or solved for crime reporting purposes by either arrest or exceptional means. As with the domestic violence offenses, the carjacking clearances are not updated. The totals in the "None" category appear higher due to collection limitations as ongoing investigations are continuing and may clear a carjacking offense at a later time.

	2010	2011	2012	2013	2014
Arrest	102	81	75	56	67
Exceptional	6	8	8	3	6

INDEX OFFENSE DATA

The tables contained within this section were designed to provide quick reference to statistical crime information relative to the different reporting areas of the State of Maryland.

The tables are broken down by Region. Within each Region information is listed in County name sequence and is further detailed to show the activity experienced by individual police agencies. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

Regional Total	-	This line indicates the total activity of all the Counties within the indicated Region.
County Total	-	This line indicates the total activity of all reporting Agencies within the indicated County.
Sheriff	-	This line indicates the total activity reported by Sheriff's Offices. This includes activity which may have occurred within the corporate limits of towns in that County.
County Police Departments	-	This line indicates the total activity reported by County Police Departments. This includes activity which may have occurred in the corporate limits of towns in that County.
State Police	-	This line indicates the total activity reported by all State Police installations within the indicated reported area. This includes activity which may have occurred within the corporate limits of towns in that County.
Municipal Police Departments	-	This line indicates the total activity reported by the specified police departments and includes only those crimes which were handled by that department.

There are five regions used in the Maryland Uniform Crime Reporting Program which are listed below.

Region I – Eastern Shore

Caroline County
Cecil County
Dorchester County
Kent County
Queen Anne's County
Somerset County
Talbot County
Wicomico County
Worcester County

Region II – Southern Maryland

Calvert County
Charles County
St. Mary's County

Region III – Western Maryland

Allegany County
Carroll County
Frederick County
Garrett County
Washington County

Region IV – Washington Metropolitan

Montgomery County
Prince George's County

Region V – Baltimore Metropolitan

Anne Arundel County
Baltimore City
Baltimore County
Harford County
Howard County

Crime Rates for the individual agencies are not calculated in the following table because of overlapping jurisdictions in many cities of municipal, county and state law enforcement agencies. This table contains the offenses as reported by the individual agencies with crime rates for the county and region totals.

MUNICIPALITY

MUNICIPALITY CRIME RATES

Crime rates for individual cities and towns are listed in the following table. The rates for many cities are based on combined data reported by municipal, county and state law enforcement agencies due to overlapping jurisdiction. For the purpose of this report, data for cities lying in several counties has been shown in only on county.

		CRIME RATE	TOTAL OFFENSES	MURDER	RAPE	ROBBERY	AGGRAVATED ASSAULT	BREAKING OR ENTERING	LARCENY THEFT	M/V THEFT
Region I										
Caroline County

ARREST DATA

ARREST DATA

The Maryland Uniform Crime Reporting Program requires the submission of monthly reports of persons arrested in the State. A record of arrest activity for both Part I and Part II crimes are received from state, county and municipal law enforcement agencies showing the age, sex and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 237,835 arrests for Part I and Part II criminal offenses were reported during 2014. In 2013, there were 245,505 arrests which represent a three percent decrease. Based on 2014 population estimates, there were 3,979.6 arrests per 100,000 of population in Maryland. The arrest rate for 2013 was 4,140.9, representing a four percent rate decrease.

A person is counted on the monthly arrest report each time the individual is arrested. This means that a person may be arrested several times during a given month and would be counted each time. However, a person is counted only once each time regardless of the number of crimes or charges involved. A juvenile is counted as "arrested" when the circumstances are such that, if the juvenile was an adult, an arrest would have been counted or when police or other official action is taken beyond a mere interview, warning or admonishment.

Arrest figures do not indicate the number of individuals arrested or summoned since, as stated above, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activities in a given geographic area, as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of perpetrators.

During 2014, 18 percent of all reported arrests were for Crime Index Offenses, the same as in 2013. Analysis of Crime Index Arrest Data indicates that larceny-theft comprised the highest percentage of all arrests for Crime Index Offenses, with 57 percent of the total in 2014. The drug abuse, other assaults, driving under the influence and disorderly conduct categories recorded the highest percentage of arrests for Part II offenses. These offenses accounted for 50 percent of the total arrests for Part II offenses in 2014.

	5 YEAR AVERAGE	2014	2013	2012	2011	2010
Juvenile	31,714	24,564	28,275	30,257	35,510	39,964
Adult	223,889	213,271	217,230	230,526	227,583	230,834
TOTAL	255,603	237,835	245,505	260,783	263,093	270,798

VIOLENT CRIME ARRESTS

In 2014, Violent Crime arrests represented 26 percent of all arrests for Crime Index Offenses and five percent of the total arrests, same as in 2013.

A further evaluation indicates that arrests for robbery and aggravated assault represented the highest percentage of the total arrests for violent crimes with 33 and 62 percent, respectively.

PROPERTY CRIME ARRESTS

In 2014, Property Crime arrests represented 74 percent of all arrests for Crime Index Offenses and 14 percent of the total arrests, same as in 2013.

The highest percentage of property crime arrests, 77 percent, continues to occur in the larceny-theft category.

GAMBLING ARRESTS

A total of 266 gambling arrests were reported during 2014. In 2013, 129 persons were arrested for gambling violations, resulting in a 106 percent increase.

Arrests for gambling offenses amounted to less than one percent of all reported Part I and Part II arrests in 2014. Persons under the age of 18 made up 20 percent of all gambling arrests in 2014, compared to sixteen percent in 2013.

DRUG ABUSE VIOLATION ARRESTS

Information pertaining to drug abuse violation arrests is collected according to specific drug categories and whether the arrest was for sale or manufacture or possession of a specific drug. During 2014, a total of 43,705 arrests for drug abuse law violations were reported, compared to 48,938 drug abuse law violation arrests in 2013, resulting in an 11 percent decrease.

Evaluation of the reported data suggests that 25 percent of all persons arrested for drug abuse violations were under 21 years of age, and eight percent were under 18 years of age in 2014, compared to 26 and eight percent respectively in 2013.

Analysis of individual categories showed that the highest percentage of arrests, which involved marijuana, was 58 percent in 2014 and 55 percent in 2013. Drug abuse arrests for opium or cocaine and derivatives decreased to 34 percent in 2014 from 37 percent in 2013. Of the total drug abuse arrests, 81 percent were for possession, while 19 percent were for sale or manufacture. In 2013, 79 percent were for possession while 21 percent were for sale or manufacture.

Possession of marijuana increased to 52 percent of the total drug abuse arrests in 2014, compared to 49 percent in 2013. Possession of opium or cocaine and derivatives decreased to 22 percent of the total drug abuse arrests in 2014, compared to 24 percent in 2013. Arrests for sale or manufacture of marijuana amounted to five percent of the total drug abuse arrests in 2014, a decrease from six percent in 2013. Sale or manufacture of opium or cocaine and derivatives amounted to 12 percent of the total drug abuse arrests in 2014, a decrease from 13 percent in 2013.

To aid in the study of drug arrests a chart by county is provided.

LAW ENFORCEMENT OFFICERS KILLED

The Statewide Uniform Crime Reporting began collecting data on law enforcement officers who died in the line of duty in 1975. The Federal Bureau of Investigation conducts in-depth investigations of these tragic incidents in which law enforcement officers have made the supreme sacrifice in the performance of their duties.

No law enforcement officers were reported to have died in the line of duty in Maryland during 2014.

LAW ENFORCEMENT OFFICERS ASSAULTED

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting System regarding the problem of assaults on local, county and state law enforcement officers.

A total of 2,968 law enforcement officers in Maryland were victims of assault in the line-of-duty during 2014, compared to 3,405 assaults during 2013, resulting in 13 percent decrease.

The rate of assaults on law enforcement officers for the State was 19 assaults per every 100 sworn officers in 2014, compared to 22 assaults per ever 100 sworn officers in 2013.

Physical force was used in 87 percent of all assaults on police officers.

The greatest number of assaults occurred while officers were responding to disturbance calls (family disputes, man with a gun, etc.) and between the hours of 10:00 P.M. and 2:00 A.M.

A total of 2,851 assaults on law enforcement officers were cleared during 2014, amounting to a 96 percent clearance rate.

LAW ENFORCEMENT EMPLOYEE DATA

LAW ENFORCEMENT EMPLOYEE DATA

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program in Maryland incorporates the collection of pertinent data relating to the police of the State. Information regarding police employee strength is discussed in this section.

This information is submitted by county, municipal and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 2014.

LAW ENFORCEMENT EMPLOYEE RATES

In 2014, the average number of full-time law enforcement employees (state, county and municipal) including civilian employees, amounted to 3.5 for each 1,000 inhabitants of the State, the same as in 2013. The rate based on sworn personnel only amounted to 2.7 per 1,000 in population, the same as in 2013.

The ratio of law enforcement employees per 1,000 population in any given area or municipality is influenced by a number of factors, much the same as the crime rate. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location, proximity to metropolitan areas and other conditions which exist in the area generating the need for law enforcement services. Employee rates also differ among agencies since in particular there is a wide variation of the responsibilities and level of activity within various law enforcement agencies. The information in this section relates to reported police employee strength and should not be interpreted as recommended strength for any area.

CIVILIAN EMPLOYEES

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Some police administrators use civilians in this capacity, thus freeing the sworn personnel for actual police-related services.

As of October 31, 2014, 4,852 or 23 percent of the total number of police employees in Maryland were civilian.
